

Logo Design

A logo is a company's IDENTITY. It represents the company and hence it should be designed with care. It leaves an everlasting impression about a company.

E.g When you think of NIKE, the first thing that will pop in your mind is the famous 'TICK' symbol. It adds 'BRAND' value to your company.

At Converge, we design logos using a unique mixture of creativity, and vision. We have a unique approach to logo design. We understand your preferences and put forth a wide variety of styles to create the logo image you want. We will provide you multiple concepts based on your field of business and your preferences. We give special attention to typography along with the symbol.

Logo Design Process.

All you have to do is fill the form give below. We will respond within 24 hours with specific questions and get to know your preferences. After that you will receive three drafts in the next 5 days. You will select one of the drafts and we will continue revision process on that draft if needed.

Here are some quick examples of our logo design skills. Click on each thumbnail to have a look at the complete image.
